

The Profile of Inspiration

Better Ideas Begin With A Better Material

**Complex
Profiles**

**Dimensional
Stability**

**Condensation
Resistant**

**High
Strength**

**Superb
Insulator**

**Corrosion
Resistant**

**Durion®
Weatherability**

Tecton's in-house R & D/design teams are staffed with experienced research scientists and engineers. We work with you through every stage of the product development process. Our fiberglass pultrusions are a superior alternative for many products that are manufactured with extruded aluminum, vinyl, steel or wood. Let us assist you in turning concepts into success. Go ahead. Get inspired. Visit our Web site for additional information.
